Hello, I'm Alex.

I live in Cinicinnati, OH

Background

　　I am originally from Russia and I moved to the US almost 4 years ago. I have a family of four. My father and brother are working as truck drivers. My mother is a housekeeper. We used to live in a very cold region in Russia. It was so cold sometimes (-40 F) that steam from the mouth could cover eyelashes and stick them together.

My hobbies are pretty simple, I like to play games, travel by car, watch new movies, listen to electronic music and also create playlists on SoundCloud. My most favourite genre in computer games is open world games. My favourite movie is Terminal with Tom Hanks. My favorite way to travel is by car, because you can stop whenever you want, and you can see the beautiful night sky from the road. When my family decides to go somewhere by car, everybody asks me to turn on my playlists.

Goals

My goal is to become a web developer and work for Google. It sounds pretty unrealistic, but I hope I will make it

My plans are to finish UCBA college, get a degree in IT and start to work as a freelancer. I also want to gain my skills in:

HTML CSS JavaScript Ruby
